Subject: Re: Wartime Bridgend

As discussed re the Bridgend Classic Car show, Ive attached a break down of the basic costs for the event to run. To keep it simple, I would suggest that the BTC could be the partner in the event along with Glamorgan Classic Car Club and cover the costs of the event. They could then provide councillors for stewarding if they so wish but only as a PR aspect, the Mayor could judge the show also rather than BCBC mayor.

Alternatively, BTC could pick specific cost area(s) they wish to support financially i.e entertainment and be a supporter so we add them either way to the marketing and use their branding at the event.

Its all open to negotiation but it would be good for the Town Council to be involved in some way as its a great event and attracts a lot of the residence as well as car fans. I think personally that it would be good to have you guys involved seeing as BCBC seem intent on not supporting the event as they used to in the beginning before BID stepped in.

We could build on this with BTC to look at the Hot Rods later on in the year?

If you need me to attend any meeting let me know and also any events you need help with in 2023 forward details so we get them in the diary.

Thanks

Paul
