**Subject:** RE: Historic Environment and Climate Change Adaptation Activity Survey for 2022

Dear Leanne

Just to confirm this Authority has responded to this survey with details of recent projects involving historic structures designed to mitigate the effects of climate change e.g Porthcawl Eastern Prom and Breakwater and works at New Inn Bridge, Merthyr Mawr. The Minor repair works at Old Bridge are classed as ongoing maintenance works rather than climate change adaptations.

Regards

Claire Hamm

**Subject:** FW: Historic Environment and Climate Change Adaptation Activity Survey for 2022

Thank you Leanne, I trust you are well ?

I have passed the correspondence on to relevant officers, copied in

Regards

Mark

Dear Mark,

Cllr Unwin has asked me to forward you the email thread below in relation to the Old Stone Bridge situation. He believes this initiative relates to the preservation of the Old Stone Bridge and requests BCBC's response to this survey.
