INDOOR MARKET - TOILET LOCATION SIGNAGE

Members will be aware that vacant stall no. 8 in the Indoor Market was converted for use as a public toilet with a grant of £10,000 from the Town Council.

Signage was placed above the facility; but directional location signage needs to be addressed to complete the project.

Suggested locations are as follows:-

a) Mention of the toilets to be highlighted on the large Market signboard located on the Rhiw Hill; either signwritten or vinyl sticker.

b) Mention of the toilets to be highlighted on the Market signs above the two entrances to the Market itself either signwritten or vinyl stickers.

c) At both entrances, there are rotating electronic stall lay-out plans displayed which still show stall no. 8 as being vacant. These need to be altered to show location of toilets.

d) Nolton Street entrance the The Rhiw - Finger sign needs to be affixed to lamp standard no. 17.

e) Caroline Street entrance - Existing fingerpost information to be upgraded.

Members are requested to consider above suggestions and, if agreed, to seek necessary permissions and procurement.

Cllr. David Unwin
Chairman of Planning
